*Blinded By Sugar* tells the story of Neil Hansell, a man who woke one morning blind in both eyes due to neglect of his diabetes. In this confronting 20-minute keynote presentation, Dr Muecke discusses why type 2 diabetes is a growing worldwide epidemic and explores a number of strategies to curb the toxic impact of sugar on our health and on our world.

**Presented by**  
**Dr James Muecke AM**  
*Ophthalmologist & 2020  
Australian of the Year*

Dr James Muecke has dedicated his career to fight blindness in the world's low-income countries. He now shifts his focus to increase awareness about the leading cause of blindness in adults – type 2 diabetes – a spiralling epidemic that's impacting nearly one-in-ten Australians. Join Dr Muecke in this webinar where he will challenge your perception of sugar and the impact it has in the development of type 2 diabetes.
