

Electrocardiogram Interpreting for Nurses

An education session aimed for practice nurses

11 May 2021
6.00 - 8.30pm

Sage Hotel
208 South Tce, Adelaide

Presented by
Ms Gemma Wilson
Nurse educator

Learning outcomes:

- Look at the components of a normal 12 Lead ECG
- Discuss the nursing actions required for patient preparation and the recording of a diagnostic standard 12-lead ECG
- Develop skills in basic and advanced ECG interpretation and the differentiation of abnormal cardiac rhythms through case discussion
