Sage Hotel,  
South Terrace, Adelaide**

*No cost to attend  
Dinner provided*

## Chronic Pain Management & Opioid Dependence

### Learning Outcomes

- Describe the updated evidence on the efficacy of opioids in pain management
- Provide guidance for having crucial conversations with patients about alternate and more efficacious pain management strategies.
- Consider a systematic approach to screening for substance misuse to ensure patient safety
- Discuss the benefits and evidence of exercise as an alternative, non-pharmaceutical approach to pain management
- Describe the referral pathways that are available to GPs for patients with chronic pain
