

WEIGHT LOSS – COVERING ALL BASES

Thursday, 2
May 2019

6.00-8.30pm

Lion Hotel, North Adelaide

161 Melbourne Street

No cost to attend
Dinner Provided

Learning Outcomes

- Explain the role allied health plays in supporting weight loss interventions
- Recognise why and when to measure resting metabolic rate
- Discuss the latest weight loss medications available and how they are best used and managed to ensure patient safety
- If conservative weight loss interventions are unsuccessful, identify who is best suited and should be considered to refer for surgery

Category 2 RACGP points and ACRRM points pending
