Safe Use of Opioids & Drugs of Dependency in Work Injury - Including Systems for Medical Practice

Learning Outcomes

- Describe the opioid dilemma in South Australia in terms of its impact on work injury
- Discuss the importance of informed pain management decision making for patients with work injury
- Describe how to implement a systems framework in a medical practice to support safe care of an injured worker

Presented by

Dr Chris Bollen
ReturnToWorkSA Medical Advisor

This workshop is targeted to Practice Nurses and Practice Managers.

A certificate of attendance will be provided for 2 hours of CPD learning.
