

Suicide; managing the risks, the behaviour and the consequences

**Tuesday, 28
March 2017**

6.00-8.30pm

**Rydes South Park,
1 South Tce, Adelaide**

**No cost to attend
Dinner Provided**

Presented by

Dr Jules Begg
Psychiatrist

For GPs, Nurses and Allied Health Professionals

Learning Outcomes

- Identify the illnesses and behaviours that may potentiate a high risk of suicidal intent
- Describe the communication process between clinician and patient in relation to suicidal ideation
- Triage suicidal behaviours that can be managed in a GP practice and what may need referral to specialist care
- Describe the referral pathways that are appropriate to ensure patient safety

Approved for 4 category 2 points with RACGP, activity #86596. ACRRM points pending
