

“Under My Skin” A Radiology Update

Saturday, 4th November 2017

Learning Outcomes

At the end of the Seminar, participants will be able to:

- Demonstrate the basic necessary skills of using an ultrasound machine
- Explain the differences and limitations of CT versus MRI
- Identify the abnormalities in 15 images showing a variety of pathologies
- Describe the most appropriate radiological referral pathways to ensure patient safety

8.30am	Arrival & Registration
9.00 – 9.10am	Introduction & Welcome
9.10 – 10.30am	Hands on Ultrasound Techniques – Troy Morrison, <i>Sonographer</i> and Kim Laing, <i>Sonographer</i>
10.30 – 10.45am	Morning Tea
10.45am – 12.00pm	Chest Imaging Skills, Case Studies, Interpretation and Review – Dr Nusha Lavender, <i>Radiologist</i>
12.00 -12.45pm	Lunch
12.45 - 2.00pm	Abdominal Imaging Skills, Case Studies, Interpretation and Review – Dr Nusha Lavender, <i>Radiologist</i>
2.00 – 2.45pm	Neurology Imaging Introduction and Case Studies – Dr Shabeer Hassam, <i>Radiologist</i> <i>Or</i> Hands on X-Ray Imaging Techniques – Brad Drever, <i>Radiographer</i>
2.45 – 3.15pm	Musculoskeletal Injury Imaging – Dr Shabeer Hassam, <i>Radiologist</i>
3.15 – 3.30pm	Afternoon Tea
3.30 – 4.15pm	Musculoskeletal Injury Case Studies – Dr Shabeer Hassam, <i>Radiologist</i>
4.15 – 4.30pm	Questions & Evaluation
