

CVD risks and lipid management

Monday, 23rd October 2024

7pm - 9pm

Online Interactive Webinar

Register at <https://sapmea.asn.au/education>

This workshop will provide an update on cardiovascular risk assessment and lipid management.

Facilitator:

- A/Prof Adam Nelson, Interventional and General Cardiologist at the Royal Adelaide and Queen Elizabeth Hospital.

Learning Outcomes:

- Explore the relationship between achieved LDL-cholesterol and cardiovascular risk.
- Summarise the role of absolute risk assessment in determining lipid lowering treatment regimen and goals.
- Describe the indications and options for non-statin lipid lowering therapy.
