

ALERT - PATIENT AT RISK OF IMMUNE RELATED ADVERSE EVENTS

**PLEASE PRESENT THIS CARD TO YOUR DOCTOR
OR NURSE IF YOU ARE UNWELL**

This patient is receiving immunotherapy for the treatment of cancer in regional South Australia.

If presenting unwell, always consider and assess for immune related adverse events (irAEs). irAEs require specialist management, please contact an oncologist if irAEs are suspected.

DOCTORS ONLY: Please contact the
on-call regional oncologist on 1300 984 779

ALERT - PATIENT AT RISK OF IMMUNE RELATED ADVERSE EVENTS

irAEs can affect any organ system, they can be severe and require prompt specialist management. irAEs can also escalate quickly and close monitoring of patients is required.

Refer to the eviQ Guidelines for Management of Immune Related Adverse Events.
